1. Tested product

We tested TrendMicro PC-cillin Internet Security 2007 with last signature update and version of the 23th March 2007 (Version 15.30.1231, Engine 8.320.1004 and Pattern 4.365.50) and with highest settings under Windows XP. The used test-set is from the 2nd February 2007.

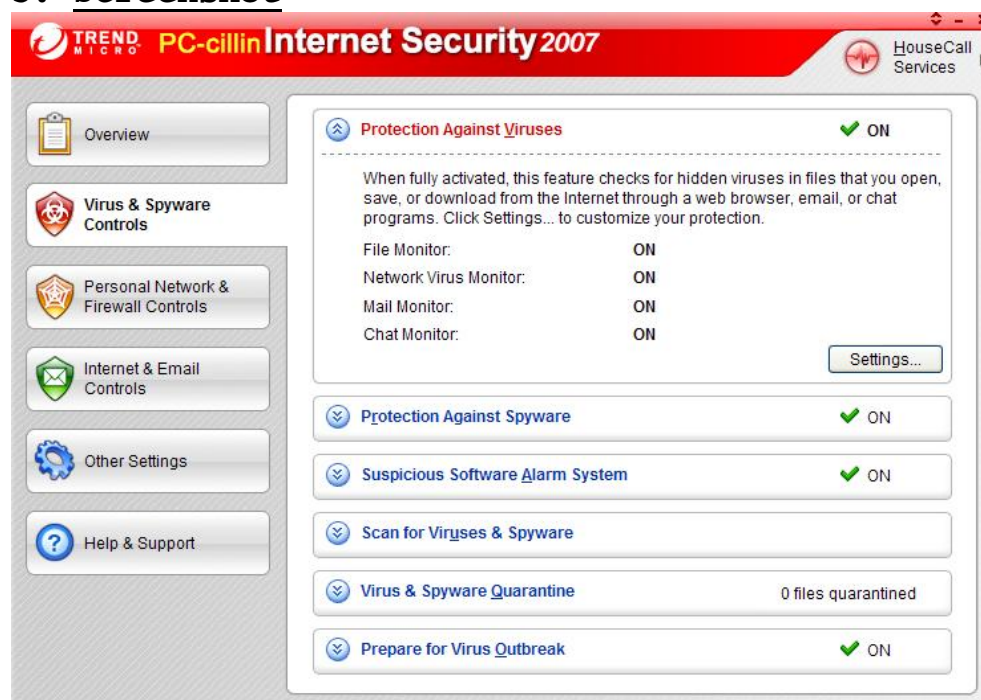

2. Test results

Below the on-demand detection rates of TrendMicro PC-cillin 2007:

Windows viruses	98%
Macro viruses	99%
Script viruses/malware	69%
Worms	95%
Backdoors	87%
Trojans	83%
Other malware	77%
OtherOS viruses/malware	82%
TOTAL detection rate:	87%

With a total detection rate of 87%, TrendMicro PC-cillin Internet Security 2007 would in our tests reach maybe¹ the STANDARD certification level.

4. Comments

TrendMicro (www.trendmicro.com) PC-cillin 2007 is certified by ICSALabs (www.icsalabs.com) and by Check-Mark Level 1 and Level 2 (www.westcoastlabs.org), which means that the product was at least able to provide basic protection against malware listed on the Wildlist (www.wildlist.org). If you are going to evaluate TrendMicro on your system, you will have to uninstall first any Antivirus and Antispyware you have already installed on your PC, even if the real-time protection is disabled.

¹ considering that they had about 2 months more time than the competitors to add samples
